EXPERIENCE

UX/UI and Visual Designer

Koios Studios, Bengaluru

December 2023

Present

- Designed UX/UI for B2B saas, admin panels, and transactional web and mobile platforms, focusing on workflow clarity and usability.
- Led end-to-end design execution including problem definition, user flows, wireframes, high-fidelity UI, and developer handoff.
- Contributed to building and maintaining reusable UI components and design systems, reducing friction across key user journeys.

Intern and Junior UX/UI Designer

Freelance, Remote

February 2023

November 2023

- Contributed to UX/UI design for 5 web and mobile projects, working on user flows, wireframes, and interface design
- Worked alongside senior designers during design reviews, iterations, and delivery cycles
- Worked alongside senior designers during design reviews, iterations, and delivery cycles

Video Editor Intern

Creative Guyz, Bengaluru

October 2022

January 2023

- Produced over 25+ professional videos and 30+ polished reels, blending with post-production to create engaging visual content.
- Improved creative quality by editing and enhancing footage for storytelling, and maintaining brand consistency.

EDUCATION

Google UX Certificate

Coursera

January 2023

July 2023

Bachelor In Commerce

Mangalore University

June 2019

October 2022

SUMMARY

UX/UI Designer with 3 years of experience working on B2B saas, admin panel, operational platforms, and transactional web and mobile products. Strong background in user research, wireframing, designing system-driven interfaces, improving workflow clarity, and building reusable UI components through close collaboration with product and engineering teams.
